University of Huddersfield Repository

McGuinn, Kate and Munks, Sarah

Targeted provision: support for researchers at the University of Huddersfield

Original Citation

This version is available at http://eprints.hud.ac.uk/10204/

The University Repository is a digital collection of the research output of the University, available on Open Access. Copyright and Moral Rights for the items on this site are retained by the individual author and/or other copyright owners. Users may access full items free of charge; copies of full text items generally can be reproduced, displayed or performed and given to third parties in any format or medium for personal research or study, educational or not-for-profit purposes without prior permission or charge, provided:

- The authors, title and full bibliographic details is credited in any copy;
- A hyperlink and/or URL is included for the original metadata page; and
- The content is not changed in any way.

For more information, including our policy and submission procedure, please contact the Repository Team at: E.mailbox@hud.ac.uk.

Support For Researchers

“appropriate provision for our research community”
Dedicated Web Pages for Researchers

Finding and Managing Information
- As a University of Huddersfield researcher you can find books and other items using the Library catalogue and access online information via Summon. You can also use referencing software to manage your references.

What can I access when I'm not on Campus?
- The University provides storage space for all staff (to L and M degrees) and students. Staff can access this using the Library's own network connection. This facility has now been extended to allow access to these resources off campus using the Mobile Home and Mobile Desktop services.

Copyright, IPR and Patents
- Find out what you can and can't do, with regard to printing, photocopying and scanning for teaching and publishing.

Keeping up to date
- Keeping up to date with the latest news and developments in your chosen research area can help you.

The University of Huddersfield Repository
- The Repository is an open access central archive of the university's research. Researchers are encouraged to deposit the full or 'as accepted version' of their work on Open Access where possible. Evidence suggests citations of research available on Open Access are increased by up to 5 times.

Archives and Special Collections
- The University has a dedicated Archives and Special Collections service.

Using Other Libraries
- There are several schemes that enable you to use the resources of other libraries.

Getting Published
- International Standard Book Number (ISBN) is a unique number used to identify a specific publication and edition. Rights for University publications are secured by the library.

Training Sessions

Computing and Library Services
Support for Researchers

In 2007 we asked you how the Library could support you in your research and you said:

- Outstanding service provided but I think I would benefit from greater personal contact or I think there is a wealth of expertise there.
- Electronic access to full-text journals and instant help from both work and home.
- More meetings between Library staff and researchers would be welcome.
- Just continue to promote easier access to resources.
- To help get access to a large number of electronic journals, books, and databases and use them online.

So we have arranged:

3 half-day sessions looking at:
- Access to electronic resources - questions and answers
- EndNote
- Current awareness
- Inter-library Loans and Secure Electronic Delivery
- A brief explanation about the University Repository
- A short introduction to Archives and Special Collections

Training sessions: feedback

Really useful, felt a bit rushed. Maybe a full-day would be better.

I had no idea all this information was freely available for researchers - thanks.

Very useful session, good to meet the library staff for my school.

More time to look at EndNote please.

A dedicated EndNote session would be useful.

EndNote will be useful but half an hour is not enough to get to grips with it.

Inspiring tomorrow’s professionals.
Reference Management: EndNote

Summon  EndNote  Word

Inspiring tomorrow’s professionals
Reference Management:
training feedback

A longer session would be useful

Hands on exercise is a very useful part of the session

Good to hear about other tools like Zotero

Two sessions would be better so we can practice more

Trainers adapted their material to suit the requests of the group which was useful

A really useful tool, will save bags of time, thanks

Reference Management: alternatives

Zotero [zoh-TAIR-oh] is a free, easy-to-use tool to help you collect, organize, cite, and share your research sources. It lives right where you do your work—in the web browser itself.
