Early Developments in Britain

The Glasgow Mechanics’ Institute and Dr George Birkbeck M.D.
Overview

Historical debates

• Mechanics’ Institutes were a failure
• Where they survived, Mechanics’ Institutes offered high level scientific lectures which were patronised mainly by the upper classes
• By the 1850s, many Mechanics’ Institutes had closed or were recreation centres......
The Distribution of Mechanics’ Institutes in across the British Isles: 1850

The Mechanics’ Institute Unions

• 1850: 700 mechanics’ institutes, 120,000 members, with 8 unions to support them
• First and largest was the Yorkshire Union, founded in 1838
• The Lancashire and Cheshire Union founded in 1839
• Institute unions in the Midlands, Kent, Northumberland and Durham (the Northern Union), Devon and Cornwall founded over the following 8 years, Leicestershire Union the last, in 1853
• They were well organised and efficient
  – Yorkshire Union, Leeds Institute had the most members, with 1,852
  – Huddersfield had 887 and was the second largest in the Union
  – Overall, Leeds was second in the country and Huddersfield tenth
• YUMI headquarters was the Leeds MI
  – Annual institute fees provided agents, itinerant lecturers, circulation libraries etc

Summary

• The Movement was *NOT* a failure
  National Developments: Science and Art Department, Society of Arts, Education Act 1870 and Technical Instructions Acts

• Some did offer high level scientific lectures which were patronised by the upper classes (Sheffield)
  – however, many were located in rural and semi-rural areas where the Gentry and professional classes were few and far between

• Several closed before 1850
  – Addingham, Huddersfield and Skipton, but re-opened and went on to be very successful, often stimulated by the success of the Great Exhibition of 1851

• Continual growth meant that, by 1900 and thereafter, many had become schools of art, technical colleges, with several becoming universities
  – Bradford
  – Huddersfield
  – Leeds
  – Manchester
