Andrew Taylor Andrew.taylor@hud.ac.uk
ADA first to deploy a PLM solution as part of its degree curriculum
“Achieving this will test the apparel industry’s ability to attract, foster and retain talent that embraces an end-to-end view of product lifecycle management and the still-unfolding technologies that provide the operational support for success.”

Suleski & Draper, Gartner 2014
Redevelopment to simulate PLM in 2010

PLM model as a framework for the redesigned programme

PLM as a platform for learning

Students are positive about PLM
- Students are confident in their potential to contribute to industry
- PLM experience viewed as a key differentiator by businesses
- Placement opportunities
- Graduate employment
Industry drivers of change as opportunities

**Market Demands**
- Higher consumer expectations
- Trend-driven product innovation
- Omni-channel service

**Cost Demands**
- Targeted design
- Emerging markets
- Rising raw material cost

**Supply Chain Alignment**
- Increasing need for agility
- Fast changing product requirements
- "Right first time" quality
- Transparency & compliance

“This addition to our curriculum actively supports our commitment to the development of a broad range of interests and skills to meet the diverse opportunities offered in the industry and prepares our students for their future careers ensuring they are ready to make a significant contribution.”
