Welcome to the Fourth Annual UK Simulation in Nursing Education Conference, Simulation: Re-creating Reality – The Learners’ Stories.

This two-day nursing event is designed to enhance the knowledge and understanding of how to integrate simulation into nursing education. Hosted by the University of Huddersfield and METI, this year’s conference will feature keynote speakers from around the world, hands-on workshops, research presentations and a poster session. It’s an excellent opportunity to network with medical simulation experts and discover the latest trends in nursing education. On behalf of the Conference Organizing Committee we hope you enjoy the conference.

An invitation is extended on behalf of the University and METI to attend an evening reception in the Quayside building on the University campus. This event offers the opportunity to meet other delegates, to network and enjoy some traditional Yorkshire Fayre and entertainment with a local flavour.

Wednesday, 17.30 – Quayside Building

UK Simulation in Nursing Education

Conference Speakers

Michael E. Bernstein, President, METI. Mike brings over 20 years of successful leadership experience in the healthcare and technology industries. Before joining METI, Bernstein was President and Chief Executive Officer of Innovative Health Strategies, President and Chief Operating Officer of Cobalt Corporation (Blue Cross and Blue Shield of Wisconsin), and Executive Vice President of the University of Wisconsin Medical Foundation, an 850 physician academic group practice, the largest Group Practice in Wisconsin and one of the ten largest in the country. Bernstein has a J.D. from the University of the Pacific, McGeorge School of Law and a B.A. from the University of California, Davis.

Thomas J. Doyle, Vice President of Education and Training and Chief Learning Officer, METI. Tom has over 28 years experience as a registered nurse, hospital administrator and nurse educator at all levels of education. He spent five years as Coordinator of the Patient Simulation Program at one of the first colleges in the U.S. to purchase the Human Patient Simulator. As Vice President and Chief Learning Officer of Education and Training for METI, he facilitates a team of educators around the world to assist customers in applying METI’s technology for learning.

Maggi Savin-Baden, Director of the Learning Innovation Group; Coventry University. Maggi Savin-Baden was educated at The University of Brunel and The University of London and has worked in both pre and post 1993 universities in the UK over the course of her career. Now Director of the Learning Innovation Group at Coventry University she is leading a team of researchers, PhD students and innovators. Over the last 20 years she has pioneered work on the use of problem-based learning nationally and internationally and continues to stimulate debate in this area. She has published numerous books on problem-based learning, education and research.

Andrew Bland, Registered General Nurse, University of Wollongong. He followed an acutely critical care career working in Accident and Emergency, Coronary Care & Intensive Care. In 1999 he worked as a Lecturer Practitioner in partnership with the University of Huddersfield and a local Accident and Emergency Department. Since becoming a full time Senior Lecturer in 2002, Andrew teaches acute and critical care to both undergraduate and postgraduate specialist practitioners. Andrew has been involved in developing the teaching and assessing strategies that utilise simulation and the equipment and facilities that promote this way of learning and is currently undertaking a PhD by publication on how nursing students learn through simulation.

Poster Sessions

Canal Side West Building, Room 01/2 – 13.35 to 14.35 (Session D) Thursday
Teaching Advanced Assessment Skills Using Simulation

Theatre of High-Fidelity Simulation Education

(*Poster presenters to be present by poster area at 14.30 – 14.50 on June 9th, 11.15 – 11.30 on June 10th prior to the 10 minute Oral Presentation in Session D)

Demonstration Times: Wednesday 15.10 – Thursday 11.35

Visit Room 101 in the Harold Wilson Building for a demonstration of METI’s all-new, touch-screen capable user interface, Muse. Muse makes everything about running a simulator better by combining the best of both worlds with simple on-the-fly control and METI’s model-driven technology. Muse now comes standard with METI’s METIman® and iStan® and will soon be available for all METI simulators.
