- Teenage/young people’s issues: e.g. sexuality, health, disability
- ‘sign of our times’: e.g. bullying, body image, health and sport
- Personal interests of students
- Academic orientation

Discussion questions

- Have you created any innovative teaching or assessment tools which brings practice and students' learning together?
- How do students learn about the experiences and development of young people on your courses?
- How do students gain the young person's perspective?
- How do students develop their own perspective as a practitioner?
- How do we use our students' insights into young people's transitions to develop our curriculum?
