Alan Reid, CILIPS President 2011

Welcome to the 2011 conference of the Chartered Institute of Library and Information Professionals in Scotland (CILIPS).

Last year, for the first time, our conference took place at the Mitchell Library, Glasgow, and such was the success of the Mitchell as the conference venue that we have returned! We are grateful to Glasgow Life for its support.

The theme of this year's conference is **Imagining the Future**. In these difficult times, it is more important than ever to gather as a profession, to share ideas and good practice, to learn together so that we can face the future with confidence.

The conference offers opportunities to explore a number of different strands including digital libraries, further and higher education, reader development and professional practice. We are very pleased to welcome keynote speakers Andy Nagle, Erik Thorland Jepsen, Linda Tomos and Annie Mauer, Chief Executive of CILIP, who will address the important issues of membership and advocacy.

With the tremendous support of our users, partners and stakeholders, advocacy is something that CILIPS already does very well, of course, but it is also a task for each one of us in our own authority and workplace. I believe that this conference programme will help direct our advocacy for libraries at all levels.
