Work Placements
A Journey Around The World

Findings from World Association of Co-operative Education (WACE) Conference.
Singapore, 2007
Terms

Co-operative Education?

Work Based Learning (WBL)?
Singapore

- Excellent skills.
- Big wins: innovation, creativity, outside the box
- Foreign Universities welcome
- Women in workforce
- Credit for achievement
- Island state – is this model replicable?
China

- Education System
- Respect for education and teachers
- Beijing workforce
- Alliances with Universities
‘Using weblog and e-portfolio’

- **E-Portfolio** – to develop work related skills
  - First steps often lonely
  - Digital diary - shared
  - Teachers can set up a log to share, Sports blog - practise English.
- **Weblog** to record work placements
  Mentor groups to read each others diaries
Japan

- Collapse of bubble economy
- Good quality workforce
- English skills poor
- Cultural Issues: don’t challenge, respect
- Gender differences
- Lifetime employment - wage seniority
  Untrained workers => to be trained
- Skills employers want
Japan - Kyoto Sangyo University

‘On/Off Campus Fusion’

- Big turnaround – no one does placements
- Placements from 2 days to 2 weeks
- Create fusion between academia & work after graduation
- Never experienced working life, how do you choose the right company?
India

- Half population under 25
- Hungry for educ.- growth limited by skills
- Talent at high end
- 60% population still rural
- Teachers well regarded
- In 1990 $100m in reserves, now $400bn.
- Talent returning to India
Taiwan

- General university education - 70%
- Tech / vocational education is 2nd choice
- Students have computers at home.
- English is not very popular
- In Taiwan everyone wants to be their own boss
Destination Two

Australasia
Australia – Legislative Context

- ‘Sandstone’ and ‘Gum Tree’
- Aus Fed Govt HE Support act, 2004
  - International students
    - WBL only if compulsory
    - 25% overseas students (OS) => affects OS recruitments
  - Home students - high employment => no WBL
- 2005 - Govt changed funding, 70% WIL by 2010 (compulsory)
- Sept 2006: Inaugural Australian Collaboration
Australia – Swinburne, Melbourne

- Place 500 students p.a.
- 40% student choose their Uni for WBL
- WBL not ‘owned’ by academics
- Major project ‘Integrating professional placements into the curriculum’
- Principle: What strategies would your faculty like to try?
‘Meeting Hospital Demand for Trainee Medical Scientists’

- Shortage of medical scientist
- Fill the roles - from other disciplines
- Well supported programme
Australia - Central Queensland Univ

- Industry based projects for first years
- Geography - large coal reserves (boom time), strong industry links, not research profile
- Need to solve complex and ill defined problems
- Well defined and practical approach
Australia – Griffith Univ, Brisbane

Understanding Academic Workload Implications

- Academic roles
- WIL is important. Unique role for academics – promotion based on research
- Lack of recognition for non-traditional teaching
- Community of practice – need and outcome
- 12 months to draft WBL guidelines
New Zealand - Unitec

‘Migrants Heading for Work’

- Sizeable immigrant community. Shop floor workers - highly educated overseas
- Get work - using English in context
- ‘Language in the Workplace’
- Authentic transcripts
- Words used at work, office politics
New Zealand (Massey) and Singapore (Abdul Outward Bound)

‘Promoting Multi-Cultural Partners’

- ‘Life is like an 18 speed bike, most of us have gears we never use.’ The Czech Way
- ‘Dramaturgy Wave’
- Singapore - history as a physical picture. 7th Feb, 1942
- Ask sensitive questions in a comfortable environment - emotions are real, out of comfort zone, sometimes people cry
Destination Three

USA
USA – Bill Gates, March 2007 talk to American Legislators

- Business comm rep, campaigner
- High school graduation
- Basic science and language skills
- Innovation - internet for every student
- Revisit migration
- Showcase the best teachers on line
- Business community - leader in training
USA - Northeastern University (NE)

- Students say Co-op is the best part of education
- Salaries pay tuition fees
- Private university. Financial crisis
- Co-op poor pedagogical? OK for jobs

Increase stature of NE via Co-op:
- Synergy and bridges - work and education
- Well paid jobs => learning
- Each stage => different kind of placement
USA – NE, Co-op as Strategy

Intellectually Demanding Work
- Quality mattered - problem for underperforming students
- Eligibility requirements - plus had to earn
- Large employers helpful. More difficult for SMEs

How successful? Still have a long way to go.
NE was 162\textsuperscript{nd} out of 250 (10 years ago), now 98\textsuperscript{th}

Conclusion: Establish Co-op as equiv. to acad. learning.
Students want practical experience.
USA – Drexel University, New Jersey

University started 1919, first co-op, 20% Prog. on-line

**MSc in Higher Education (Launched 2005)**

- Professionals and leaders in HEIs.
- Career advancement, executives and PhDs
- Retention 86%, 95% work f/t: Deans, Profs, dentists
- Need for HE administrators: 6000 roles p.a. 50% due to retire
- Action research dissertation – solving own problems in HE
- Institutional => research driven => benchmarking
- 30% of students have had a promotion
Destination Four
EUROPE and AFRICA
UK – Liverpool John Moore’s

‘Blogging from the Touchline’

- CETL funding
- Understanding graduate needs of sports clubs
- Academic secondments
- Anonymised blogs about experience
- Students talk not blog
- Realistic understanding of football environment
- May take 10-15 years to get the ‘right’ job

Blogging is an effective method to develop student’s understanding of a closed environment
Kosovo

Economy
