# Diff-X: a High Performance Alternative to Chlorine Based Disinfectants

Peroxyacetic acid (PAA) is a proven high performance disinfectant  
Can be generated on demand through the reaction of water, TAED and a peroxide generator.

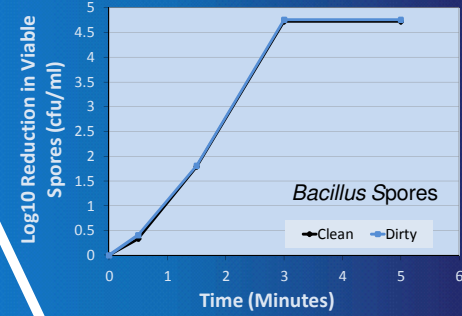

**Sporicidal**

PAA is rapidly sporicidal

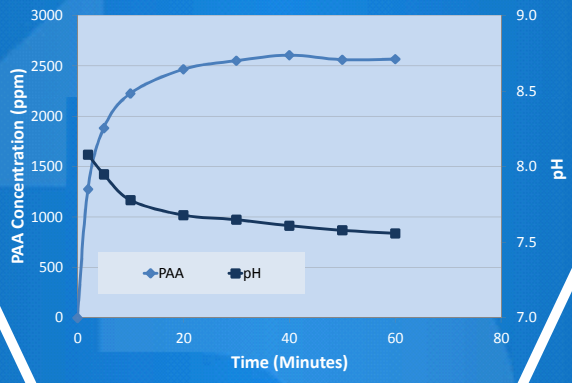

**Surface Activity**

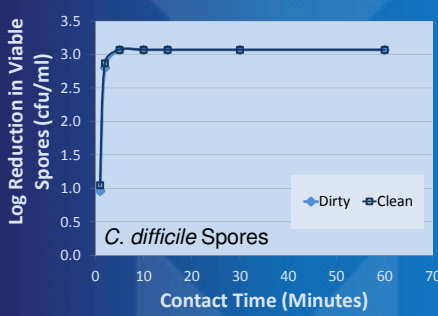

Tested via:  
BS EN13697

## Diff-X: PAA on demand

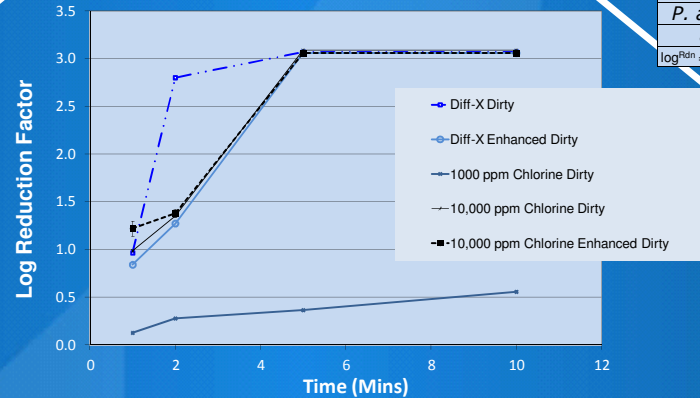

Not sensitive to organic soil

Rapid surface activity against bacteria and spores even in the presence of organic soil

## Viable Alternative to Chlorine

Tested via:  
BS EN13704
